

Dear F.C.C.,

Please keep the Indiana Telephone Privacy laws in place! We are so much enjoying the quiet at night with our family, full of time uninterrupted by phone calls from solicitors. If we want a loan, credit card, etc., we would call a company that would provide it. We do not want our telephone number to be a part of endless lists owned by telemarketing companies or companies drumming up business.

We love the work that Steve Carter, our attorney general, has done to keep our phone number private.

Please support this work and recognize that it is what Hoosiers really want.

Thanks so much!  
Lynne Ann Crohn
